

Title: Justice Studies Program

Date: January 23, 2023

Running Time: 00:02:35

Rachel Oudit [00:00:04] Learn the different systems of justice and community services to make a positive difference in society in our Justice Studies program.

Rachel Oudit [00:00:13] Our courses allow you to observe theories related to justice, law and other related fields. We then take those theories and work with you to apply them to real life situations. Practice forensic techniques with a law enforcement professional in a CSI room and work with your classmates to investigate a staged crime scene. Take part in a mock trial in class, and even practice making arrests on your classmates.

Rachel Oudit [00:00:39] Use everything you learned in over 200 hours of community service across two placements; ranging from the Ministry of the Attorney General to police services, law offices, and even advocacy groups such as Yonge Street Mission. Your placements will give you a test drive for what's to come and the connections you need to succeed in a career in justice.

Rachel Oudit [00:01:00] Get well equipped to pursue any area in the justice field from working in law enforcement to graduate school to law school. Our graduates now work in police services and border services, corporate investigations, major banks such as RBC and probation, and some have even gone on to become teachers and others have gone on to pursue their master's degrees and even obtained their doctorates. Many of our graduates also have gone on to Canadian law schools such as Osgoode, Ottawa and U of T.

Rachel Oudit [00:01:30] Whether you'll be working in enforcement, law, government or going to graduate school to fine tune your expertise, this program will ensure you have the knowledge you need to succeed.

Gianluca [00:01:41] Being able to learn the legal side of law and the enforcement side of law is extremely unique. So being able to go to a class and learning about you know why is the law the way it is, and then going to another class, practicing an arrest on a fellow classmate, putting both the theory and practical together to give us that overall experience that I wouldn't get anywhere else.

Gianluca [00:02:00] Right now, my future career aspiration is to hopefully become a lawyer. But more importantly to me, I know that regardless of what career path I choose in the Justice Studies field that the program here at the university has helped and really prepared me for my future.
